New Titles, Best Sellers & Special Offers!

ABUSIVE RELATIONSHIPS: Get Help, Get Out!

"Many teens think an abusive relationship is usually a guy hitting a girl and just beating her," observes one of the many perceptive teens in this powerful program about abuse in adolescent relationships. What this young woman already knows, and viewers will soon discover, is that abuse comes in many different forms, and it can be hard to recognize at first. Teenagers of diverse backgrounds, including First Nations, speak frankly about their experiences with dating violence. What make this program particularly unique are the stories from a male victim as well as siblings and friends. The program is organized into sections which first teach teens how to identify abuse and then answer these important questions: What happens next? Why not leave? When did you realize? How do you get out? Who can help? Where do you go from here? What would you tell others? This program raises awareness about the various resources available - teachers, counselors, friends, parents - and also encourages bystanders to speak out. #10624/0425 27 minutes 2006 \$89.95 Grades 7 to 12 *SA

ASKING FOR IT: Ethics & Erotics of Sexual Consent

The line between sexual consent and sexual coercion is not always as clear as it seems -- and according to Harry Brod, this is exactly why we should approach our sexual interactions with great care. Brod, a professor of philosophy and leader in the pro-feminist men's movement, offers a unique take on the problem of sexual assault, one that complicates the issue even as it clarifies the bottom-line principle that consent must always be explicitly granted, never simply assumed. In a nonthreatening, non-lecturing discussion that ranges from the meanings of "yes" and "no" to the indeterminacy of silence to the way alcohol affects our ethical responsibilities, Brod challenges young people to envision a model of sexual interaction that is most erotic precisely when it is most thoughtful and empathetic. Ideal for classes in gender studies, communication, and sociology, and especially useful for extracurricular workshops. #13749/0685 38 minutes 2010 \$149.95 *CC *SA

BEYOND: Surviving the Reality of Sexual Assault *Canadian!

This docudrama clarifies the details that often surround acquaintance rape, with special attention paid to its repercussions for both parties involved. The program follows the two participants from their initial meeting, through the act itself, the medical, forensic, police, and court proceedings that follow. Particular attention is paid to the 'blame the victim' defense tactic that is often used in such cases in court. Not surprisingly the same thinking can often be found in the mind of the perpetrator. Viewers are also shown the victim's process of healing as it takes place through counseling and group support. This is an excellent tool to let both male and female viewers know that sex under pressure and threat has many unforeseen results for both victim and perpetrator. #7386/1045 27 minutes 2000 \$159.95 *CC *SA

DATE RAPE: A Violation of Trust

To the average student, the definitions of date rape and sexual assault are notoriously unclear. Use this program to eliminate the confusion before anyone gets hurt. The video firmly reinforces the concepts that rape has its roots in hate crime; date rape is just as wrong as rape by a stranger; a victim is never "asking for it", no matter how the person dresses; and no one ever "deserves it". The video also underscores the rules of the dating game: a date is not an invitation for sex; No means No; and the inability to give consent doesn't mean Yes. Interviews with rape survivors and mental health professionals shed additional light on the trauma caused by rape, the process of post-rape emotional recovery, and the importance of post-rape support by family and friends. Date rape drugs are given special attention, and tips on safer dating are provided.

This series is a well-researched, mini-curriculum, designed for high school health classes or small training groups and can be readily adapted to any busy class schedule. The instruction incorporates role-playing and discussion to build awareness about coercive sexual behavior and how to prevent it.

COERCION: What Is It? The purpose of this program is to create more awareness among teens about coercive sexual behavior.

REFUSALS AND RESPONSES - The purpose of this program is to build positive social skills for refusing sexual advances and responding to refusals.

THE VIRTUAL DATE CD - It is virtual because the viewer takes the perspective of the person going on a date - what that person sees, thinks, and does. There is a story version for guys and for girls. It is interactive because the viewer plays a key role in directing the events of the story. At certain points, the story stops and the viewer has to decide what he or she will do next on the date. Choices lead cooperative or coercive outcomes. It is educational because the viewer receives feedback from the actors about the particular outcome he or she created.

FLIRTING WITH DANGER: Power and Choice in Heterosexual Relationships

Social and developmental psychologist and author Lynn Phillips explores the line between consent and coercion in this thought-provoking look at popular culture and the ways real girls and women navigate their heterosexual relationships and hookups. Featuring dramatizations of interviews that Phillips conducted with hundreds of young women, the film examines how the wider culture's frequently contradictory messages about pleasure, danger, agency, and victimization enter into women's most intimate relationships with men. The result is a refreshingly candid, and nuanced, look at how young women are forced to grapple with deeply ambivalent cultural attitudes about female sexuality. Essential for courses that look at popular culture, gender norms, sexuality, and sexual violence. *Viewer Discretion Advised: Contains Sexual Imagery and Language. #15141/0685 55 minutes 2012 \$179.95 (Colleges & Universities \$269.95) *CC *SA

RAPE IS.... *Selected for the Academy of Motion Picture Arts and Sciences series of "outstanding documentaries"

This documentary explores the meaning and consequences of rape. Looks at rape from a global and historical perspective, but focuses mainly on the domestic cultural conditions that make this human rights violation the most underreported crime in America. Many types of sexual assault are not considered a serious crime by the legal system and our society refuses to see the true cost of this brutal denial of basic rights. Expands the narrow ways we think of sexual violence, and demonstrates that it is not a sporadic and rare occurrence, but a cultural and criminal outrage that affects millions of women, children and men all over the world. #9766/0400 32 minutes 2002 \$389.95 *Available CC upon request

GENERATION "M"

This program tracks the destructive dynamics of misogyny across a broad and disturbing range of media phenomena: from the hyper-sexualization of commercial products aimed at girls, to the explosion of gender violence in video games aimed at boys; from the near-hysterical sexist rants of hip-hop artists and talk radio shock jocks, to the continually harsh, patronizing caricature of feminism found in virtually every area of American pop culture. #12229/0685 58 minutes 2008 \$149.95 (Colleges & Universities \$289.95)

RESTORING DIGNITY: Frontline Response to Rape

The initial interaction between a rape victim and the first authority figure who responds has more impact on eventual recovery than virtually anything else. This program provides police, emergency medical technicians, social workers, hospital personnel, sexual assault counselors, or anyone who might find themselves in that situation with the necessary tools to handle the difficult position of being the first responder to a rape victim. #11298/1883 32 minutes 1998 \$189.95

SEXUAL ASSAULT: Naming the Unnamed Conspirator

In this provocative presentation, career prosecutor Anne Munch examines how societal attitudes influence legal cases involving sexual assault. Drawing on her experience prosecuting sex crimes, Munch demonstrates how rape cases frequently turn on the involvement of what she calls an "unnamed conspirator" - the complex of myths and stories we tell ourselves as a culture about sex, gender, power, and responsibility. Using examples from real cases, and harrowing evidence from actual 911 calls, Munch shows how the assumptions that juries bring into the courtroom often stack the odds against victims, and challenges us to question how our own assumptions might reinforce victim-blaming. The result is at once a stunning look inside our criminal justice system and a cutting analysis of American culture's warped views of women's sexuality.

TOXIC RELATIONSHIPS: The Next Generation Speaks Out About Dating Violence

Teenage dating behavior is the training ground for adult relationships. Unchecked physical and emotional violence learned at an early age can too easily become domestic violence later on. In this thought-provoking program, high school students discuss disrespect, jealousy, obsessive demands, isolating behaviors, power and control issues and blaming. They also describe what a healthy relationship should be like. Concluding with the early warning signs of relationships that could turn dangerous, the program encourages students to look for trust, respect, and acceptance from their friends and partners.
