### **\*Brand New!** WHAT RIGOR LOOKS LIKE IN THE CLASSROOM

What does rigor really look like in the classroom? As schools are focused more and more on increasing academic rigor, it's a question every teacher is asking. In this video, Robyn Jackson dispels the confusion by presenting the clear and concise definition of academic rigor she's developed over time and working with teachers to show them what rigor looks like in practice.

Visit a variety of different schools to see real teachers who are using Jackson's field-tested methods to successfully boost academic rigor in their classrooms. You'll witness these teachers helping students to construct meaning for themselves; impose structure on information that allows them to think accurately, consider multiple meanings, and engage in disciplined inquiry and thought; integrate their skills into processes; and apply what they've learned in more than one context and to unpredictable situations.

WHAT RIGOR LOOKS LIKE IN THE CLASSROOM takes the mystery out of rigor and provides practical guidance for implementing rigorous instruction that meets the needs of all students. #16107/0187 45 minutes 2015 \$259.95 \*SA

### CORE SIX: Strategies for the Classroom

Based on the best-selling book The Core Six: Essential Strategies for Achieving Excellence by Harvey Silver, R. Thomas Dewing, and Matthew J. Perini, see the strategies come to life within six classrooms across different subjects and grade levels. You'll witness teachers capturing students' interests, using discussion and questioning techniques to extend their thinking, and asking them to synthesize and transfer their learning. Provides practical, common sense methods for tackling the Common Core standards and bringing out the very best in your students. #15869/0187 45 minutes 2014 \$249.95 \*SA

### TOTAL PARTICIPATION TECHNIQUES

YES! Easy-to-use and incredibly effective alternatives to "stand and deliver" teaching strategies in their classroom!!! Includes interviews with authors Pésida and William Himmele who explain how to make every student an active learner. And classroom scenes from elementary and high schools show teachers how to use Total Participation Techniques (TPTs) to get and hold students' attention, activate higher-order thinking, and provide formative assessments of academic progress. Hear teachers and administrators explaining the steps to implementing TPTs so they engage every kind of learner, from ESL students to gifted but disinterested students. See field-tested techniques like pair-share and pause-star-rank in action, take a tour through an actual TPT toolkit to discover effective supplies to use with TPTs, and witness a peer coaching session that observes and breaks down ways to maximize learning. #16064/0187 40 minutes 2014 \$259.95 \*SA

### VOCAB IN ACTION: Critical Strategies for your Classroom

The video scenes in this program show teachers how to use fun strategies like jingles, movements, and graphic organizers to teach key words. Hear author Marilee Sprenger explain how to put brain-research based, time saving strategies for mastering vocabulary into action. And introduce teachers to easy-to-implement, 10-minute or shorter mini-lessons that help students build a robust vocabulary and develop greater confidence in reading, writing, and testing. #15887/0187 45 minutes 2014 \$249.95 \*SA

## ENGAGING STUDENTS WITH POVERTY IN MIND

These two programs – ELEMENTARY and SECONDARY - demonstrate exactly how to implement the breakthrough ideas and strategies from renowned author and learning expert Eric Jensen. Takes educators to both elementary and secondary classrooms providing strategies that combat the effect poverty has on students and achievement. See teachers in their classrooms embrace the seven engagement factors and make engagement a routine part of their classroom culture. Hear from administrators and teaching coaches who explain how they make engagement a focus through professional development and school policy. And learn from the students as well who talk about their struggles and successes as they benefit from a fully engaged learning environment.
